Sellers are obligated by law to disclose all known material (important) facts about the property to the buyer. Arizona law requires that you disclose material facts about the property whether or not you are asked by the buyer or a real estate agent, or when asked to complete a disclosure form. There are also some very specific seller disclosures that you are required by statute to make. For example, sellers are required to disclose information on lead based paint in homes built prior to 1978, and if the property is in the vicinity of a military or public airport. You may also be required to complete and record an Affidavit of Disclosure if you are selling property in an unincorporated area of a county.

"...you have a duty to disclose the information, regardless of whether or not you consider the information material."

If the buyer asks you about an aspect of the property, you have a duty to disclose the information, regardless of whether or not you consider the information material. You also have a legal duty to disclose facts when disclosure is necessary to prevent a previous statement from being misleading or misrepresented: for example, if something changes. However, a seller does not generally have a legal obligation to correct defects in the property, as long as the defects are disclosed. Any correction of the defects is a matter of contract negotiation between you and the buyer.

If you do not make the legally required disclosures, you may be subject to civil liability. Under certain circumstances, nondisclosure of a fact is the same as saying that the fact does not exist. Therefore, nondisclosure may be given the same legal effect as fraud.

The Arizona Association of REALTORS® Residential Seller's Property Disclosure Statement ("SPDS") is designed to assist you in making these legally required disclosures and to avoid inadvertent nondisclosures of material facts.

You should complete the SPDS by answering all questions as truthfully and as thoroughly as possible. Attach copies of any available invoices, warranties, inspection reports, and leases, to insure that you are disclosing accurate information. Also, use the blank lines to explain your answers. If you do not have the personal knowledge to answer a question, it is important not to guess - use the blank lines to explain the situation.

The SPDS is divided into six general sections:

1. **Ownership and Property:** This section asks for general information about the property, such as location, ownership and occupancy. Any seller, whether or not that seller has actually lived in the property, should be able to answer most, if not all, of the questions in this section.

2. **Building and Safety Information:** This section asks for information regarding the physical aspects of the property. You should disclose any past or present problems with the property and any work or improvements made to the property. You are also asked specifically to disclose any knowledge of past or current presence of termites or other wood destroying organisms on the property, and whether scorpions or other possible "pests" have ever been present on the property. Although many sellers will answer affirmatively to these questions, they were necessitated by lawsuits involving the alleged non-disclosure of these natural inhabitants.

3. **Utilities:** You are asked whether the property currently receives the listed utilities, and if so, to identify the provider. The water source and any known information about drinking water problems should also be disclosed.

4. **Environmental Information:** A variety of environmental information is requested. In addition to questions regarding environmental hazards, you are asked to disclose any issues relating to soil settlement/expansion, drainage/grade, or erosion; noise from the surrounding area including airport and traffic noise; and any odors or other nuisances. As a result of recent lawsuits and potential health concerns, you are asked specifically if you are aware of any past or present mold growth on the property. Mold spores are everywhere and when mold spores drop in places where there is water damage or excessive moisture, or where there has been flooding, mold will grow. Thus, you are asked to disclose any conditions conducive to mold growth, such as past or present dampness/moisture, flooding, and water damage or water leaks of any kind.

5. **Sewer/Waste Water Treatment:** There are many questions dealing with the topic of sewer or wastewater treatment as a result of claims involving alleged misrepresentations that the property was connected to a sewer, when in fact it was not. You are asked if the entire property is connected to a sewer and if so, whether the sewer connection has been professionally verified. If the property is served by an on-site wastewater treatment facility, i.e., a septic or alternative wastewater system, a variety of additional information is required.

6. **Other Conditions and Factors - Additional Explanations:** These blank lines provide space for you to disclose any other important information concerning the property that might affect the buyer's decision-making process, the value of the property, or its use, and to make any other necessary explanations.

Please note: By law, sellers are not obligated to disclose that the property is or has been: (1) the site of a natural death, suicide, homicide, or any other crime classified as a felony; (2) owned or occupied by a person exposed to HIV, or diagnosed as having AIDS or any other disease not known to be transmitted through common occupancy of real estate; or (3) located in the vicinity of a sex offender. However, the law does not protect a seller who makes an intentional misrepresentation. For example, if you are asked whether there has been a death on the property and you know that there was such a death, you should not answer "no" or "I don't know"; instead you should either answer truthfully or respond that you are not legally required to answer the question.
MESSAGE TO THE SELLER:

Sellers are obligated by law to disclose all known material (important) facts about the Property to the Buyer. The SPDS is designed to assist you in making these disclosures. If you know something important about the Property that is not addressed on the SPDS, add that information to the form. Prospective Buyers may rely on the information you provide.

INSTRUCTIONS: (1) Complete this form yourself. (2) Answer all questions truthfully and as fully as possible. (3) Attach all available supporting documentation. (4) Use explanation lines as necessary. (5) If you do not have the personal knowledge to answer a question, use the explanation lines to explain. By signing below you acknowledge that the failure to disclose known material information about the Property may result in liability.

MESSAGE TO THE BUYER:

Although Sellers are obligated to disclose all known material (important) facts about the Property, there are likely facts about the Property that the Sellers do not know. Therefore, it is important that you take an active role in obtaining information about the Property.

INSTRUCTIONS: (1) Review this form and any attachments carefully. (2) Verify all important information. (3) Ask about any incomplete or inadequate responses. (4) Inquire about any concerns not addressed on the SPDS. (5) Review all other applicable documents, such as CC&R’s, association bylaws, surveys, rules, and the title report or commitment. (6) Obtain professional inspections of the Property. (7) Investigate the surrounding area.
